

INTERVIEW WITH VICTORIA GREGORY  
PSYCHIC/SPIRITUAL COUNSELOR

MJ: I haven't been this open with anybody for awhile. OK today is the May 6, 1990 my name is Mark Junge and I'm talking with Vicky Gregory here in the Dinning room of her home. Which is what is the address here?

VG: 1420 South Nebraska unit c Casper Wyoming, 82609.

MJ: What is your occupation what is your title?

VG: I call myself a spiritual counselor psychic. I use the word spiritual counselor I am I feel that I counsel people as much as I do readings.

MJ: Is psychic ok if I use that term?

VG: Yes, it's ok I avoid it.

MJ: It doesn't offend you?

VG: Oh no, it's doesn't offend me but I avoid it when I'm advertising. Because there's statue something right, that I've just heard about that I talked to on the phone.

MJ: Well let's say we have a picture of you and then your occupation underneath, what would you prefer as your occupation the title?

VG: Spiritual Counselor-Psychic.

MJ: Ok, now do you do this fulltime?

VG: Yes, I do.

MJ: Did you use to do it full time? What did you do before you became a fulltime.

VG: I worked for a dentist here in town. I've worked for an oil company and a dentist the oil company is why I am here in Casper. I came up here to do drafting for them, and then with the with the crunch in our economy I went back to the down field and which I did in Denver.

MJ: Oh in Denver! Ok I usually ask this right at the beginning, What date were you born?

VG: January 8, 1953 I'm 37 now.

MJ: Where were you born?

VG: Brannerd Minnesota.

MJ: And your parents names.

VG: My Farthers name is Garven Gregory, my mothers name is Virginia Gregory.

MJ: Ok Brothers and sisters.

VG: I have a sister K-shelly who's just a couple years younger than I'am a brother that is no longer living just a year younger than her and a little brother 8yrs. younger than myself who is in Aliance Nebraska.

MJ: There were four of yous and now there are three. Do you mind saying what happened to you brother?

VG: He died of cancer when he was 19 I was 23.

MJ: Ok you were born Brannerd were did you go from there how trace this past.

VG: We I was born in Brannerd cause it was a small metropolitin area for all the surrounding little towns. I come from Pineriver and I lived there until I was eight with my family of course the we moved to Minniapolis until I was about fifteen. Then we spent a year in Denver COlorado stillwas living with my family and that was my sophmore year and junior year in high school.

MJ: Where did you go to school?

VG: North Glenn High.

MJ: I was raised in Denver that's why I asked these questions.

VG: And then I lived there went back and lived there. Then I graduated from high school and spent my junior and senior in Sidney Nebraska. Moved there with my family stayed another 6 months past and then went to college got a down assitant degree in Denver stayed there until 1979 actually.

MJ: Where did you go to school in Denver?

VG: Park school and business. Worked for a Dentist there, for a long time. Tords the end of my stay in Denver I went back to school to the Community College and took Drafting Engineering Drafting. Moved to Casper in 1980 and I've been here ever sence.

MJ: The school in Denver where you took drafting was which one?

VG: Red Rocks Community College.

MJ: Is that over there by Red Rocks?

VG: It's in Golden they call it no it's not actually in Red Rocks but that's the title of it.

MJ: So then you came to Casper with the idea of doing what?

VG: Engineering Drafting took engineering work for Tooke Engineering.

MJ: O.k

VG: And I worked for them a couple of years a year and 9 months.

MJ: So you got this Graphic ability you got a little artistic ability.

VG: Yes, I always say that with my Dental background I'm very people oriented because of Dentist that oral expression so I they express to me I express to them. Plus I loved being of service but then with all my drafting I'm very detailed oriented I very focused strong ability to concentrate and can also work alone without the people. I've discovered during that time that I really preferred the people.

MJ: So you don't prefer working alone.

VG: I can and it is satisfying also, because I I'm detailed oriented but at that time in my life I did miss the people.

MJ: Now when did you first decide that what you wanted to be a Spiritual Counselor?

VG: I never did decided that, Mark it just happened. Beginning to do readings my ability to talk with people, the fact that people do open up to me. It's just happened for me .

MJ: O.k let's go back a couple of steps in time. Describe your first Psychic experience.

VG: I'm going to have say it's been very matter of fact for me, it's always been there as a child I could zero in on people. I didn't know for many many years what it was to have a Psychic experience such as predicting, earth quake or I never have I just get feelings I just know something will be, and I've learned through adulthood to listen to it and act on it. Not to discount it.

MJ: Do you you don't have any recollections then of when you first became got introspective enough that you able to say.

VG: I really am Psychic. To say that to my self, I would say through readings through talking to people. They would say that's right how did you know that? I would just kind of center myself and relise it was just a feeling. I would channel and working through a higher forest.

MJ: So this was a gradual

VG:Gradual, It was conscouise and that I developed my psychis ability through medication through meditation through listening to it. Through what other people were telling me.

MJ: Then the way you have inturpeted this cause this is not something that happeded because you made a conscouise decision early on there was something outside besides yourself.

VG: That led me on this way. Led me on this path yes. and I respect it I feel blessed that I'm the one that can that gets to do this it's an honor it's not something I take of granted, nothing that I will miss use.

MJ; How do you think it comes to certain people and not others?

VG: I think we are all psychic everyone has the ability to conect with there higher self, or there higher power and get information who really learn nowledge thats appropriate for this life time we all have it. Some of use have it more than others some of us choose to developpe it.

MJ: Why doesn't every one choose to developpe this?

VG: It may no serve them well they it may not do anything for them they might still really need to have the scientific reason for everything they intulectualize there actions there behavoir rather than to stop and say.

MJ: Do you think there is a general public attitude towards psychic themominom that will not allow people socialy to exercise that power.

VG:I think there has been in the past and I think it is still ebident but it's getting better and better, people are talking about this more and more. They I still many of them talking about it in a negative way but at least there talking about it. I think bright minded and intelligent people do not rule it out as they don't rule many things out.

MJ: Do you think this is going to open up even more then?

VG: Yes.

MJ: Do you really consciously and this is based on one of Roses questions, feel that things have really changed in the last 5 or 10 yrs.? How long has this been going on?

VG: I think that in the last 5 or 10 yrs., there more and more people that are open to it. They've had there experiences many through operations they see the light they felt the light. They've seen as they've grown older and wiser that there is no such thing as an accident things do work out the way there suppose to.

MJ: What do you mean they see the light?

VG:The light the um the love the light, light is gods love its the energy its the energy from the godhead its um its an energy that feels you up. With peace with light with love its brighter than a glisening feild of snow it's brither than looking at the sun.

MJ:Is that defineable can human beans define that or is it beyoned human definition?

VG: Yes, its beyoned human definition.

MJ: This is going natuarly this is the question I probly wanted to ask you the most. This is Roses question Discribe what happens how you feel pyhscily and mentally when you recieving psychic messages or vision?

VG: Many different it can be a feeling that comes over me, its just a knowing ness it can be a voice it can be a vision such as a leaf falling through before my eyes to let me know it's the time the fall of the year, it can be a cold chill a warmth its what I recieve from the people I'm talking to there body language there contact with me there openness there walls. Its a I'm a channel I working through a higher force and its just here it just flows and I make sure it flows.

MJ:You were born under a sign and so was I and there different signs are we conpadible?

VG: NO! were not all I know about you so far is that your a geminice sign that's an error I'm a capicorn strong and which is earth that squares all that.

MJ: Well so that someone coming up to you asking you what;s your sign has really not that much relavince.

VG: It cant be just revoliced as the personality.

MJ: Do people who are into the same sign have a are they alike nature do they get along or would people is it like two simular ends of a magnet that repell?

VG: Could be either or, it could have to do with all these other planets there placement in the natal chart of birth they could have the as far as sun signs or have a likeness there but then totally different in other areas, and it can be exactly what your saying a strong compatibility Gemini the twins the two sides of you that are alike with this person.

MJ: Do you ever have the psychic feelings about a building a place an object like you mentioned, the leaf falling through the air. Indication of atom to me that's kind of simple because most people the way you described it I am visioned this brown elm leaf.

VG: That something could happen here?

MJ: Yes.

VG: An emergency a peace a being shown exactly what's going to be happening in this building with a certain group of people or the structure itself you bet.

MJ: How about an object?

VG: Taking an object and reading it is called psychometry you can take someone something like around them like a pen, or a ring and pick up their feelings or maybe pick up where this ring came from if it was a gift who from.

MJ: You can do that?

VG: Yes,

MJ: Have you trained yourself to become more sensitive to that and how I've trained myself
